

THE TOWNS AROUND.

BARNET.

The following is from the Woodstock, Ill., Sentinel of April 23: The funeral of Mrs. Weaver, who died at Woodstock last week, was held at the Free Methodist church on Saturday. Mrs. Weaver was one of our earliest residents, but had not lived here for a number of years. Her family were among the promoters of this village in its early years. Her husband, Daniel Weaver, who has been dead for some time, was the first hotel keeper in this town, and was well known by all who have lived here long. Mrs. Weaver leaves three children to mourn her loss, Mrs. McNett of Woodstock, Ill., and Messrs. S. L. and N. B. Morrison of Creston, Iowa. Mrs. Weaver was a native of Barnett, Vt. She was a daughter of Capt. Ephraim Pierce, and a sister of E. S. Pierce of Danville.

EAST BURKE.

Whooping cough and mumps are epidemic in this village.

Mrs. Harris Smith is very sick with pneumonia and Mrs. Amos Lowell is nursing the "Grippe."

WEST BURKE.

There was a white frost here Wednesday morning.

Way & Bartlett have finished carrying potatoes, sending in the last this week.

The Caledonian came to us in a new form last week. It is a great improvement.

Some Lyndon men passed through here Tuesday with several pounds of fine large trout.

Grass in this vicinity looks well and farmers are getting well along with their spring work.

Help is scarce here. Men at work in the mill for \$1.15 a day have been offered \$22 a month and board by farmers.

The first quarterly conference of the Methodist board of stewards will be held here next Saturday. The quarterly meeting is also held here Saturday and Sunday with Presiding Elder Donaldson in charge.

DANVILLE.

Rev. Mr. Hatch of Corinth is in town.

Miss Hall arrived at her home last Friday.

Col. William Dole is having his house painted.

E. E. Badger has commenced work on his new house.

Miss Brainerd of Montpelier is visiting Miss Currier.

French Morrill visited friends in McAdams Falls last week.

Mrs. West has been visiting her daughter, Mrs. Charles Morse.

John Bandy and family of Barnett visited at C. H. Wilson's lately.

The usual spring work is being done on the roads all over town.

Miss Currier is teaching the summer term of school at South Danville.

Mrs. W. Danforth and Mrs. F. Danforth of Barre are at H. C. Danforth's.

Miss E. Davis has returned from New York, where she passed the winter.

James Green moved a short time ago from Morse's Mills to South Danville.

A part of Dr. Ayer's family arrive at their summer home in the village this week.

George Greenbanks has made extensive repairs on his buildings at South Danville.

F. J. Preston and family have moved into the tenement in B. F. Haviland's house.

The library association will have a sociable at the library rooms on Friday evening, May 15.

All breeders of horses will be interested in a notice concerning "Lambert A" in another column.

Mrs. Adeline Green, who has passed the winter in Somerville, Mass., is with her son, Walter Green.

The selectmen of Danville have appointed and hired John Sias to be liquor agent for the coming year.

M. V. B. Sargent of South Danville has built a bay window on his house besides making general alterations inside.

The Sons of Veterans in Danville will meet at the G. A. R. hall next Saturday evening to form an organization.

The Danville readers of the Caledonian congratulate the editor and his associates on the new and enlarged form of the paper.

Rev. Mr. Williams of Peacham preached at the Congregational church last Sunday forenoon and evening in exchange with Rev. W. H. Stuart.

A. G. Danforth of Morse's mills has a man working for him who spread seven loads of manure in seven hours over two acres. Who can go ahead of this?

At the meeting of the Congregational church and society, held last Wednesday, the committee was instructed to take steps for repairing the church building. Charles Morse was elected a member of the committee in place of Mr. Shipman, who left Danville a few weeks ago.

There is a general complaint in

many of the Danville school districts that the parents and friends of the pupils do not seem interested to visit the schools. It would be a source of much gratification to teachers as well as to scholars if their home friends and others would visit the schools and see for themselves what work is being done; and we feel sure the visitors could not pass a more interesting and enjoyable half hour. In this way we all can help each other, being benefitted and entertained at the same time.

WEST DANVILLE.

Hollis Way broke one of the bones of the left leg recently.

Will Adams has moved from Connecticut to the Wallace Tice farm.

Farmers are busy with plowing and planting and everything indicates the approach of real spring.

Henry T. Badger has moved to Barnett and left his farm for his brother, Harvey C. Badger, who will soon vacate his mother's farm.

William Choate, a section man on the Lake road, caught his foot in the wheel of a moving hand-car recently and had it severely jammed.

LYNDONVILLE.

The Stallion Exhibition.

Those who believe the saying that "the horse is the only animal which has a right to be proud" would have been strengthened in this belief on gazing at this magnificent display of life in the stallion parade at Lyndonville Wednesday afternoon. There were 75 horses entered and the first stallion meeting of the Northern Caledonia Fair association was voted a success. It was a show well worthy of a larger attendance.

At about 2 o'clock the horses were formed according to class and, under leadership of the Lyndonville Cornet band, passed around the trotting track in review. Four magnificent Percherons of a white and dapple gray color were at the head, and the rest of the entries followed.

As the parade closed Gen. W. W. Groat made a few remarks in relation to the best breeds and pedigrees for the horse breeder to work with.

He said that two or three around one common stove were the best number to talk horse rather than a large crowd. In these days when speed instead of drawing capacity was the desire, it became necessary to study the best breeds for speed. He then went on to show how many Hambletonian horses there were who had produced speed, making a good record for the progeny of this famous breed, and then spoke in justification of the Morgan horses who had been somewhat out of favor for sometime past. It is valuable blood. We want to "get there" on speed with the rest, and if the Morgan horses alone can not fill the bill, then let us carefully consider and have a sprinkling of strains that will—because we must—"get there."

At the close of the speech further opportunity was given to inspect the various horses and "talk horse" to the heart's content of the most devoted. The show furnished a valuable opportunity to see some of the best of Vermont's excellent stock. Following is the list of entries:

Black Morgan, H. O. Niles, Stannard. Topps, H. E. Hutchinson, Lyndon.

John Buffum has been quite sick for several days.

Charles Emery is building an addition to his house.

A strong wind did much damage to fences in this town last week.

I. F. Page has very much improved the looks of his place by painting his buildings.

The remains of Miss Mary Greenwood, a former resident of this town, who died at Barnett last week, were interred in the cemetery at North Monroe.

The meeting of the Epworth league at John Emery's last Friday evening was quite interesting. The question "Which is the worse habit, the use of tobacco or intoxicating drinks" was discussed by all present.

The meeting this week is to be with Inez Paddelford when the league paper will be read.

MORRISVILLE.

Quarterly meeting was held at the Methodist church Sunday last.

Mrs. A. O. Gates gave the students of the Academy a very pleasant reception at her residence last Friday evening.

LOCAL NOTICES.

A New Chemical Compound, Kem Kom.

We have received a copy of pamphlet issued by the Standard Coal and Fuel Company, of Boston, setting forth the wonderful qualities of the Chemical Compound prepared and sold by them.

The qualities of this compound can be summarized as follows:

It saves twenty-five per cent of the coal.

It makes a quick ready fire with any kind of coal. It reduces the quantity of ashes and dust, and consumes the soot and smoke.

It will cause a furnace to give more heat with the dampers closed than with them open.

It destroys all poisonous coal gases, and protects the family of the consumer against all diseases of the throat, lungs, headache, etc., which are occasioned by such gases. It is thus an indispensable blessing in every household.

This compound is now in use on the New York & New England Railroad upon all their locomotives, and the superior qualities claimed for it by the Company are fully sustained by those who have used it. One barrel of this compound, containing four hundred pounds, costs twenty (20) dollars, and when used under the most favorable conditions will effect a saving of \$125. Mr. Herbert Radcliffe, the former secretary of the Home Market Club, is the agent for this preparation. He regards Kem Kom as capable of rendering the greatest possible service to all consumers by reducing their coal bills. Those interested—and all should be—should write to him, Agent Standard Coal and Fuel Co., Equitable Building, Boston.

The best medium in New England in which to advertise for summer boarders is the Boston Transcript. Send for rates.

Only Gentlemen Read This.

You hear more or less about the No. 7 cigar. Are you aware that it is the best 5 cent cigar sold in this town? If not and you smoke you can very easily prove it by trying one. It is the longest smoke, the sweetest smoke, and the best smoke that 5 cents will buy. Do not think that you cannot smoke anything but a 10 cent cigar. You can buy the No. 7 at all the drug stores. Nearly 100,000 sold in Northern Vermont since Jan. 1, '91. In the last 4 months of '90 less than 10,000 sold in the same territory. Facts count.

This is the last ad. for this season of the Wales Goodyear Co. on page 4. Do not forget them this summer. They have certainly demonstrated to us that they make an excellent quality of Rubber Boots and shoes.

Dr. Gage's Wonderful Success. Next Visit Soon.

His cures are truly wonderful. Franklin Hadlock, of McAdams, Vt., says his physician said he would not live three days with kidney and bladder diseases, but Dr. Gage brought him out of it without seeing him; Dr. Levi B. Dodge, Waterford, bleeding from kidneys, cured; E. F. Bickford, West Milan, given up as hopeless, cured and doctor did not see him; J. W. Planders, Lancaster, son cured; hundreds of other cases cured; Judge B. E. Badger, Concord, says Dr. Gage cured him of bleeding and protruding tumors large as hens' eggs, by one painless application. Dr. Gage's great discovery enables him to guarantee a cure in every case or charge no pay. Geo. Gile, Littleton, N. H., cured of a complication of diseases and also a distressing case of bleeding and protruding piles; cured by one painless application. W. N. Andrews, Laconia, cured of same and gained 23 pounds. Thomas J. Hardy, Stewartstown, great sufferer with bleeding and protruding piles, cured. C. M. Badger, Barton, also cured by one painless treatment of bad case of piles. Wm. J. Berry, Lyndonville, cured of injury to spine, after others had failed. Dexter M. Jackson, Stratford Hollow, got no relief until he consulted Dr. Gage. If sick see him.

Ranney & Potts' customers insist on their keeping Lamolite crackers. Why? Because they are second to none.
